Rick,

I hope you are well and that business is good. I was just notified about the letter your attorney sent claiming we are violating one of your patents. We were advised by our supplier that it was their technology. I'll have our patent attorneys look into it.

Would you consider licensing your patent to us at a reasonable fee if, and I reiterate if, our attorneys determine we were misled by our supplier?

I look forward to hearing from you.

Best regards,

David Boardman
