HIPPO

The power behind the player

Product Catalog 2008

www.hippo-golf.com

Welcome to the 2008 HiPPO product line...

...presenting the most exciting and innovative products to hit the market in the 20 year history of the Hippo Golf Company.

Using state of the art materials and components, the new range for 2008 incorporates the latest research techniques and cutting edge technology to provide products of exceptional performance at affordable prices.

HEX TX

The HEX TX is the most powerful new geometry driver on the market.

Loft options
Driver 9.5°, 10.5°, 12°

Shafts

Mitsubishi Rayon CP4

Grafalloy Platinum

- Following the success of the HEX2 driver, the new HEX TX pushes new geometry technology in a driver to the max particularly for the most demanding player.
- A dynamic head shape with V-slot sole affords the Hex TX maximum 5000 plus MOI and the highest legal .350 COR, meaning raw power, faster clubhead speed and longer, straighter drives.
- The unique V-Slot sole design and aerodynamic side slots help generate greater club head speed and the super light multi step carbon fiber crown allows for optimum weight repositioning to the rear corners with two 8 gram weight ports. This combination creates a driver with explosive power and the highest MOI Hippo has ever produced.
- The HEX TX delivers a better ball flight with tighter shot dispersion even with aggressive off center hits
- The Beta Titanium sole, carbon fiber crown, and super hard SP700 titanium face coupled with a unique geometric shape result in the ultimate performance driver design yet.
- The HEX TX is powered by Hippo's proprietary Mitsubishi Rayon CP4 shaft and is also available with the hot new Grafalloy Pro-launch Platinum shaft in regular, stiff, and extra stiff flex.
- The Hippo dual cord grip (upper half cord, lower half soft compound) is standard and provides incredible feel and control even, in wet conditions.
- Available in 9.5, 10.5, and HL 12 degree lofts right hand only.

HEX Driver

The unique HEX2 driver is recognized as the best performing new shaped driver available.

Loft options

Driver 9°, 10°, 12°

The unique hexagonal shape allows optimum weight distribution to reduce the effect of side spin and provide more energy transfer from club face to ball resulting in the straightest and longest driver ever designed.

Hippo's patented Integrated Technology marries ultra light woven 3K carbon fiber radius side rails to a 6-4 titanium crown and sole that is welded to the super hard forged beta ti face allowing the thinnest face possible for maximum COR and distance.

6 grams of additional weight at the aft corners provide an extremely high Moment of Inertia (MOI) and help stabilize the club head on miss

hits ensuring straighter drives.

The aerodynamically shaped 460cc club head is designed to reduce drag on the backswing and generate higher head speed at impact.

HEX is powered by Hippo's CP4 proprietary shaft utilizing state of the art Mitsubishi Rayon with high modulus graphite fibers. Available in extra stiff, stiff, regular and senior flex.

The Hippo dual cord grip (upper half is cord, lower half soft compound) is standard and provides incredible feel and control even in wet conditions.

Available in 9, 10, and 12 degree lofts and 10 degree left hand.

Shaft

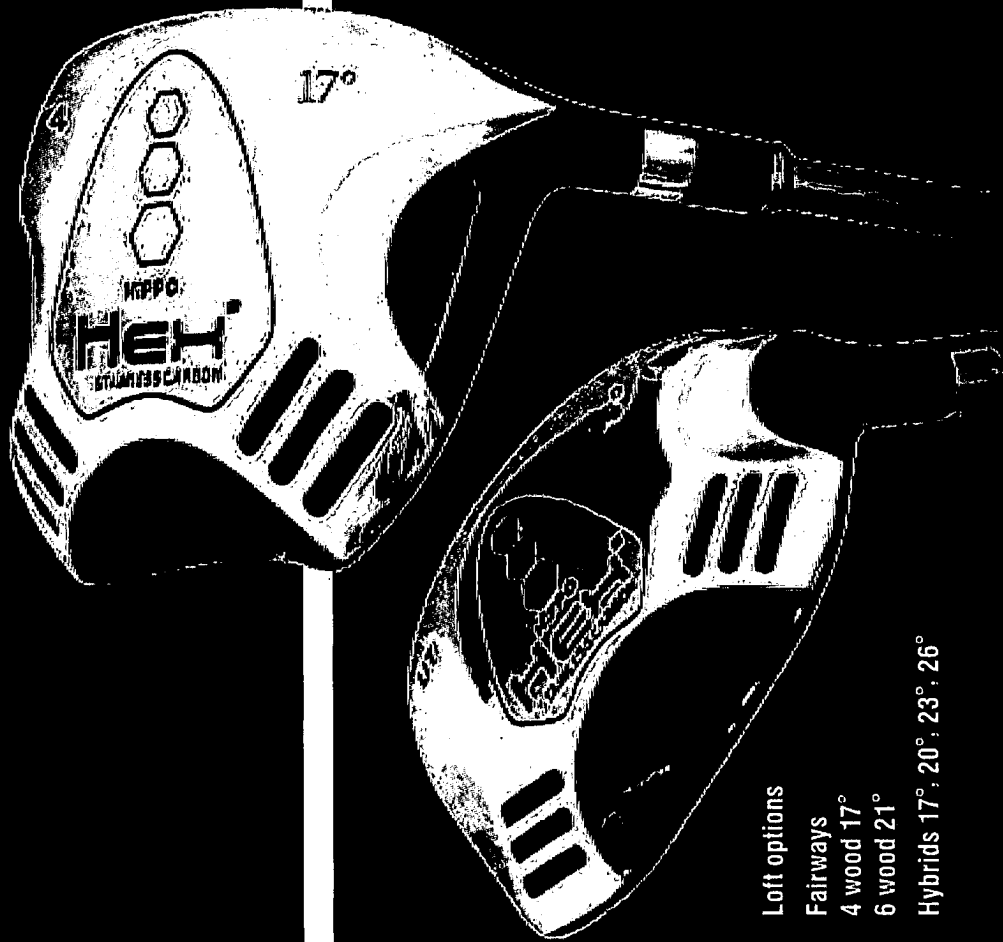

Mitsubishi Rayon CP4

HEX Fairway and hybrid woods

HEX2 Fairway woods and Hybrid Utility clubs incorporate the same player friendly geometric shape as the very successful Hippo Hex driver.

- Unique hexagon shape creates highest MOI (Moment of Inertia) producing straighter shots particularly when struck off center.
- Extra weight low in the back corners keeps the club head from twisting and creates a higher trajectory for greater carry and distance.
- The sole, face, and crown are made of super hard maraging stainless steel with side rails of lightweight carbon fiber. The result is a forgiving club off the tightest lies, deepest rough or even fairway bunkers.
- Hippo HEX2 Fairway woods available in #4/17 degree loft and #6/21 degree loft right hand only.
- Hippo HEX2 Hybrid Utility clubs available in 17, 20, 23, and 26 degree loft right hand only.
- Both fairway woods and hybrids are powered by the proprietary Mitsubishi Rayon CP4 shaft available in Stiff and Regular flex.
- The Hippo dual cord grip (upper half cord, lower half soft compound) is standard and provides incredible feel and control even in wet conditions.

HEX Progressive iron set

The HEX 3-2-3 Progressive irons are the most advanced club set design ever.

#8, #9 and PW cavity irons

#6 and #7 closed cavity iron

#3, #4 and #5 hybrid irons

- The normally hard to hit lower lofted #3, #4, and #5 irons are now redesigned as forgiving hybrids and the tough middle irons are replaced with maximum perimeter weighting shaped hollow core irons that are as easy to hit as a pitching wedge. Higher lofted scoring irons #8, #9, and Pitching Wedge are deep cavity, pin seeking one putt birdie makers.

- The #3, #4, and #5 hybrid irons are similar in shape to the Hex driver and have optimum weight distribution low and to the rear corners to make a forgiving club that get the ball up quickly for long high shots to the green.

- The #6 and #7 middle irons are a closed deep cavity design with a vibration dampening polymer cavity cap to create a soft feel long iron

- with an amazingly large sweet spot resulting in unparalleled accuracy necessary for low scores.

- The #8, #9, and Pitching Wedge are designed with a deep cavity low weighted sole for high soft shots to the pin out of deep rough or hardpan lies.

- The Hex 3-2-3 Progressive iron set is available with the proprietary Mitsubishi Rayon CP4 graphite shaft in Stiff and Regular flex or steel shaft in Stiff or Regular flex.

- The Hippo dual cord grip (upper half cord, lower half soft compound) is standard and provides incredible feel and control even in wet conditions.

Shaft

Mitsubishi Rayon CP4

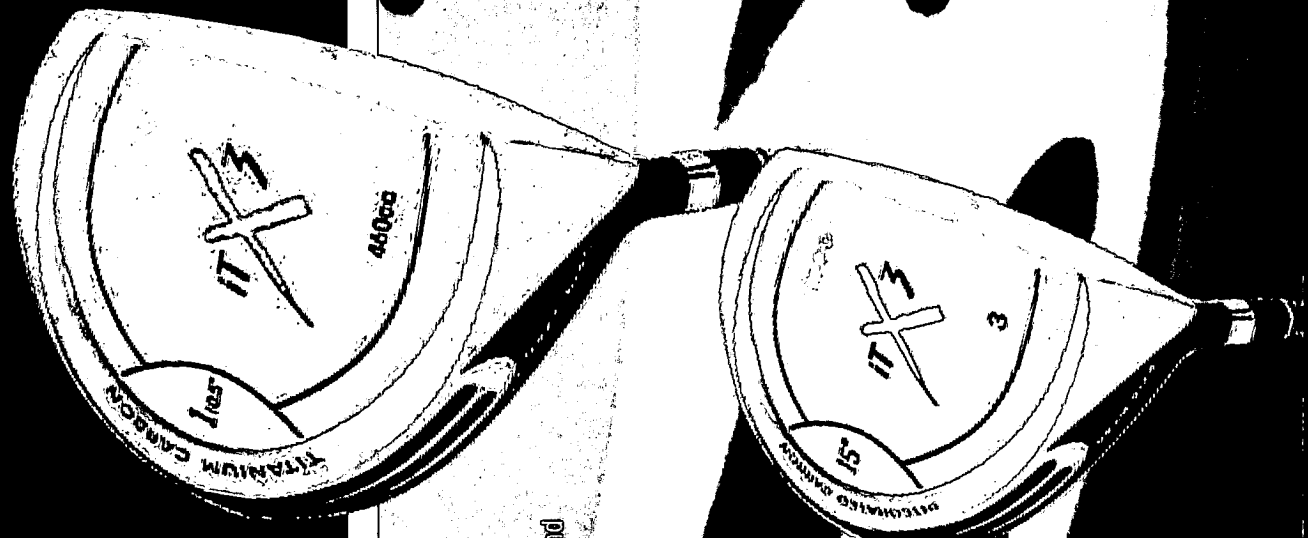

True Temper Steel

Driver and fairway woods

The new ITX3 woods incorporate Titanium and Carbon in the driver and Stainless Steel and Carbon in the fairway woods to optimize weight distribution to create incredibly forgiving golf clubs.

- **Driver.** Ultra light carbon fiber in the crown allows redistribution of an extra 10 grams of weight in the heel to produce a 'draw bias' ball flight.
- Extra weight rings in the heel create a high MOI to promote straighter, longer, and more forgiving drives particularly on miss hits.
- The club face is made of super hard SP700 Titanium for explosive energy transfer at impact resulting in tremendous driving distance.
- The ITX3 driver is available in 9.5 and 10.5 degree lofts right hand only.
- **Fairways.** Ultra light carbon fiber in the crown allows redistribution of extra weight to the heel for a right to left ball flight.
- A shallow face and low center of gravity help get the ball up quickly from the tightest lies or deepest rough.
- The smooth radius sole cuts through the turf and picks the ball cleanly ensuring higher, longer, and straighter shots.
- The ITX3 fairway woods are available in 3 and 5 woods right hand only.
- **Shaft.** The ITX3 driver and fairway woods come with Hippo's proprietary Mitsubishi Rayon shaft with the finest high modulus graphite fibers. Available in Stiff and Regular flex.
- Hippo ITX3 woods feature the premium velvet 'Red Tip' tour grip.

Hybrids and irons

The ITX3 hybrids and irons are designed to get the ball up quickly from tight fairway lies or deep rough.

ITX3 Irons Set
#4-SW

Loft options

Hybrids 17°, 20°
23°, 26°

- ITX3 Hybrids. Ultra light carbon fiber in the crown of the hybrid allows redistribution of extra weight low and in the heel to promote a 'draw bias' shot.
- The hybrid club is designed with a shallow face and low center of gravity to help get the ball up quickly with a high trajectory for added distance.
- The ITX3 hybrids come in 17, 20, 23, and 26 degree lofts right hand only and use the graphite Mitsubishi Rayon shaft in Regular or Stiff flex as standard.

- ITX3 Irons. A two piece construction of stainless steel and carbon to dampen vibration at impact.
- With a deep cavity back to promote maximum forgiveness on miss hits, the ITX3 irons are incredibly forgiving.
- The ITX3 iron set is #4-Sand Wedge in right hand only and come with either the Mitsubishi Rayon shaft or steel shaft both in Regular or Stiff flex.
- The Hippo ITX3 hybrids and iron set feature the premium velvet 'Red Tip' tour grip.

DETAILED BIAS

XXL

Driver, fairways and hybrids.

The XXL woods feature fixed weight technology for a lower CG and better ball flight. XXL by name, XXL in distance.

The XXL driver, available in 9, 10, and 12 HL degree lofts, is constructed of Beta Titanium, is big at 460cc and features a deep face with visible weight technology at the heel to take the MOI to the legal limit.

The XXL 3, 5, and 7 fairway woods are shallow face clubs designed specifically to help get the ball up easily from tight lies or deep rough and with extra weight at the heel are incredibly forgiving on miss hits.

The XXL hybrids in 17, 20, 23, and 26 degree lofts, are easier to hit than

long irons and are designed to be incredibly forgiving on miss hits.

The XXL driver, fairway, and hybrids come standard with the proprietary Mitsubishi Rayon graphite shaft and are available in Srix Regular, and Senior flex driver and fairways only.

The XXL woods and hybrids feature the premium velvet 'Orange Cap' tour grip.

HIPPO

XXL Combo iron set

The XXL irons from Hippo are the easiest hitting and most forgiving irons ever!

- The XXLs are a hybrid set of irons with the #3 and #4 long irons being replaced with utility rescue-style clubs for greater playability and versatility.
- The short and mid-irons feature an undercut cavity head design for greater forgiveness and consistency. A flow weight system is also utilized that progresses through the set that not only assists to download the center of gravity for a better ball flight and more distance, but also makes for greater precision and control in the short and mid-irons.
- Available with Hippo's proprietary low torque graphite shaft featuring Mitsubishi Rayon. Also available with FST performance steel shafts. The XXL irons come standard with Hippo's Orange Tip grip.
- Available in right-hand steel and graphite in regular, firm and A flexes.

Femco Steel

XXXL 4 x 4 combo hybrid iron set

The HIPPO XXL hybrid iron is designed to provide the ultimate in forgiveness, distance, and control. Hit your long irons with the forgiveness and distance of your fairway woods, while providing the control of a traditional iron.

- The large hybrid irons #3, #4, #5 and #6 are constructed of stainless steel and are designed to eliminate the slice, add distance, and be incredibly forgiving on miss-hits.
- Additional weight is placed low and deep in the head to produce a higher shot trajectory that lands soft.
- The XXL deep cavity irons #7, #8, #9 and PW have the highest MOI (Moment of Inertia) of any irons and guarantee solid shots from all lies.
- Built from stainless steel and with unique sole channels allow this iron to cut through the deepest rough with incredible ease.
- Available with Hippo's proprietary Mitsubishi graphite shaft or steel shaft in Stiff, Regular, or Senior flex.
- The XXL 4 x 4 Combo Hybrid Iron set feature the premium velvet "Orange Cap" tour grip.

HIPPO

Magia 4x4 Combo hybrid iron set

The Magia combo set is designed specifically for women as the ultimate forgiving club that adds distance and control over traditional irons

- The oversized stainless steel hybrid irons #4, #5, #6 and #7 provide confidence and forgiveness from the tee or the fairway.
- Additional weight is placed low and deep in the hybrid head to produce a higher shot trajectory with added distance.
- The Magia deep cavity irons #8, #9, PW and SW have the highest MOI (Moment of Inertia) of any irons and are designed to be the most forgiving ever.
- Built from soft stainless steel and with unique sole channels allow this iron to cut through the deepest rough with incredible ease.
- Available with the proprietary Mitsubishi Rayon graphite shaft in Ladies flex with the soft velvet grip.

Shaft
Mitsubishi Rayon Graphite

HIPTEC² Driver, fairway and hybrids

The HipTec 2 wood family utilizes state of the art materials and new club head shapes to make the most forgoing new clubs on the market.

- The 460cc, forged titanium driver with ultra light carbon V-slot encourage longer and straighter drives with less side spin.
- Extra weight at the back corners create an incredibly high MOI (Moment of Inertia) to keep the ball flying high and straight.
- The stainless steel 3 and 5 fairway woods incorporate the same forgiving geometry as the driver. A shallow face and radius sole gets the ball airborne from the deepest rough or hard pan lie.
- The shallow face stainless steel hybrids in 17, 20, and 23 degree lofts replace the hard to hit lower

HIPPO

HIPTEC New Geometry Woods

The HipTec Geo wood family brings together dramatic new club head geometry with latest materials and technology to produce incredible performance.

- o The 460cc forged titanium HipTec Geo driver with external weighting is designed to produce long and straight drives.
- o Visible external weighting counteract ball side spin to reduce the slice and encourage a high launch angle.
- o The HipTec Geo 3 and 5 fairway woods are made of super hard maraging stainless steel and a shallow face to get the ball up quickly from the toughest lies.
- o The HipTec Geo 17, 20, and 23 degree hybrids incorporate the same game improving technology as the fairway woods and will make those long shots to the green easy.
- o All HipTec Geo woods use a proprietary Mitsubishi graphite shaft as standard available in Regular flex and come with a velvet premium grip.
- o Left hand available.

HWT Wedge

HIPPO Wedge Technology
(HWT) forged wedge.

Air Wedge

A unique design guarantees an easy out from the toughest lies.

- Forged from mild carbon steel to provide exacting feel and feedback to the player
- Traditional clean profile design and peripheral weighting for superior playability
- Sand-blasted club face with natural grooves for superb spin and touch control
- Fitted with System Matched steel shafts as standard
- Available in traditional forged steel and gunmetal finishes
- HIPPO premium velvet grip, with reminders fitted as standard

Loft options

Right hand 52°, 56°, 60°, 64°

Left hand 56°, 60°

- The oversize, hollow, stainless steel head with additional weights at the toe and heel keep the club head square through impact for solid shots out of the deepest rough or toughest bunkers.
- Stainless steel hollow core construction puts weight to the edges and creates a very soft feel.
- Scalloped sole helps direct the club head through the deepest rough and toughest bunkers for explosive high trajectory shots to the green.
- External brass weights at the toe and heel make for the highest moment of inertia wedge possible stabilizing the club head through impact.
- True Temper steel shafts and Hippo's premium velvet grip.

Loft options

60°, 65°

HIPPO

CNC Milled Wedge

The Hippo CNC milled face wedge is forged of soft 304 Carbon Steel.

- o The dark glare resistant electroplated oil can finish ensures years of durability.
- o Precision CNC milling of the face provides a 100% flat surface with extra texture to impart maximum back spin.
- o Durable electroplate non glare oil can finish.
- o True Temper steel shaft and soft synthetic leather wound grip.

Page 17

Hex Putter

The HEX2 Putter features the hexagonal shape made popular by the HEX Driver.

iT X₃ Putter

A range of uniquely designed mallet putters made using the finest materials available for incredible accuracy.

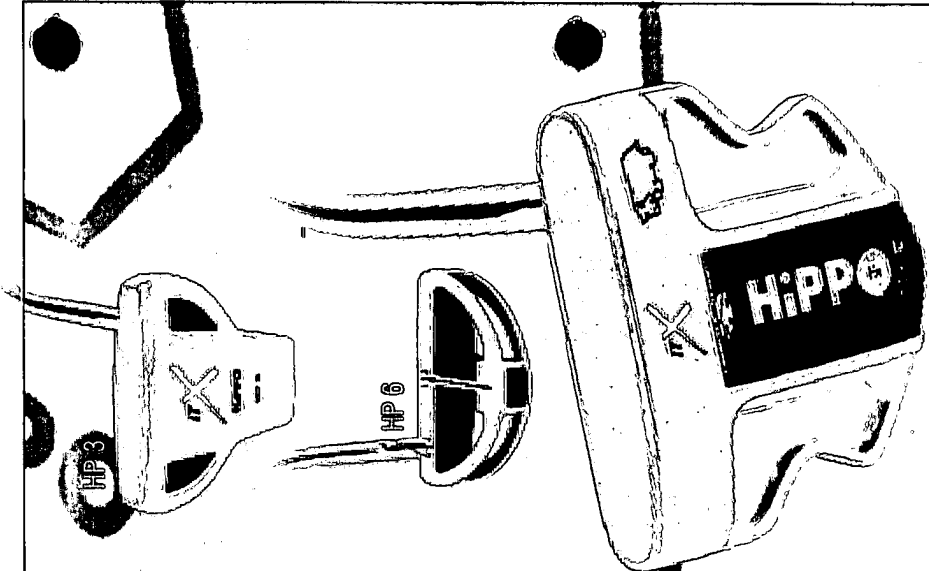

- Three highly visible hexagons on top of the putter head create a unique alignment system allowing for straighter putts.

The CNC milled aluminum face is backed with polymer to create a soft yet firm feel.

The hexagonal shape of the putter along with three grams of weight in each of the back corners gives it a high MOI and a huge sweet spot.

The putter sets square at address and stays on plane through impact.

- Features a Hippo soft two-tone grip for great feel.
- Available in 34" and 35" shaft length options.
- Right and left hand.

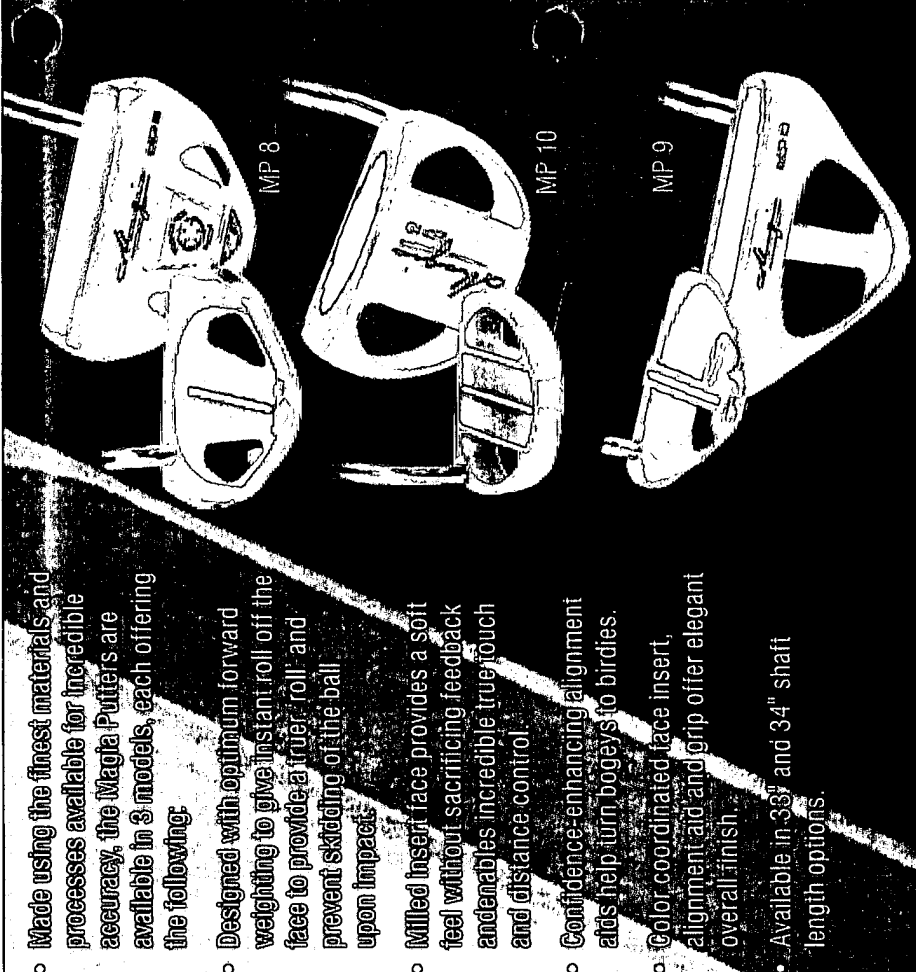

- Designed with optimum forward weighting to give instant roll off the face to provide a truer 'roll' and prevent skidding of the ball upon impact.
- Aluminum CNC milled insert face provides a soft feel without sacrificing feedback and enables incredible true touch and distance control.
- Each model features a confidence enhancing alignment aid to help turn bogeys to birdies.
- Fitted with a Hippo triple bending shaft as standard and a one piece 'hot red' tour grip for added feel on the greens.
- Available in 34" and 35" shaft length options.
- HP6 available in left hand.

Magia Putters

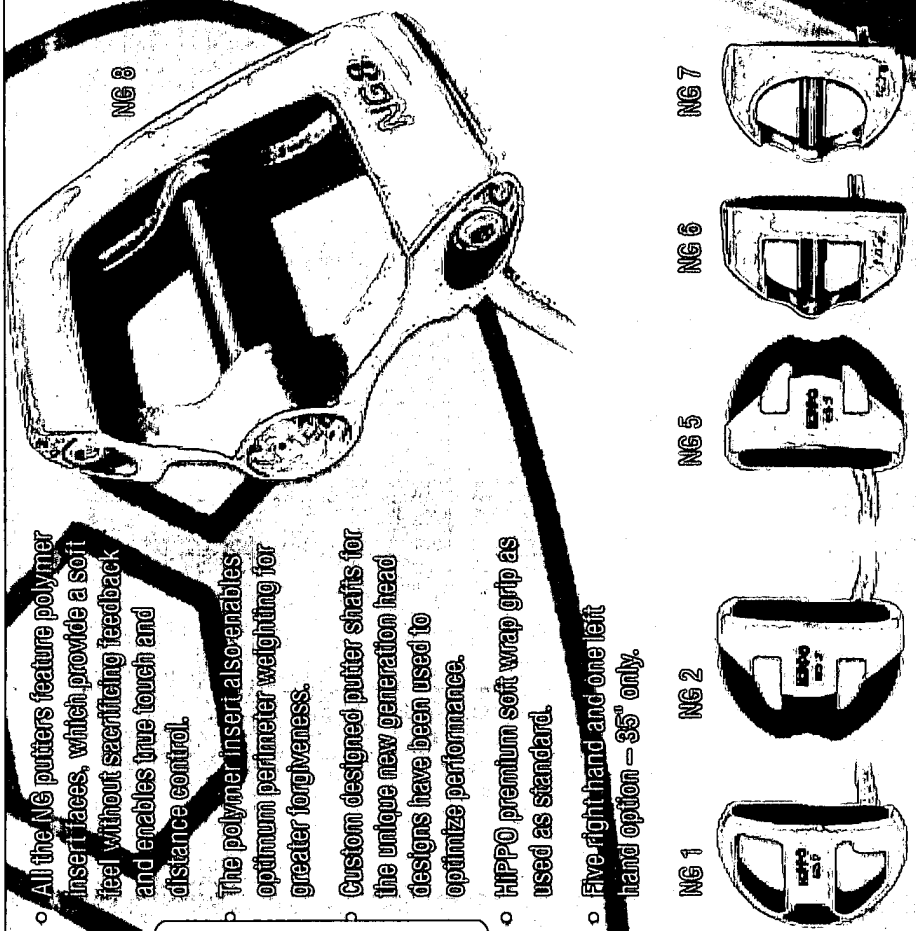

The new Magia putters are a range of uniquely designed mallet putters for ladies.

NG Putters

The HiPPO NG putter range incorporates five unique new generation designs specific to HiPPO.

- Made using the finest materials and processes available for incredible accuracy, the Magia Putters are available in 3 models, each offering the following:
 - Designed with optimum forward weighting to give instant roll off the face to provide a truer roll and prevent skidding of the ball upon impact.
 - Milled insert face provides a soft feel without sacrificing feedback and enables incredible true touch and distance control.
 - Confidence enhancing alignment aids help turn bogeys to birdies.
 - Color coordinated face insert, alignment aid and grip offer elegant overall finish.
 - Available in 33" and 34" shaft length options.

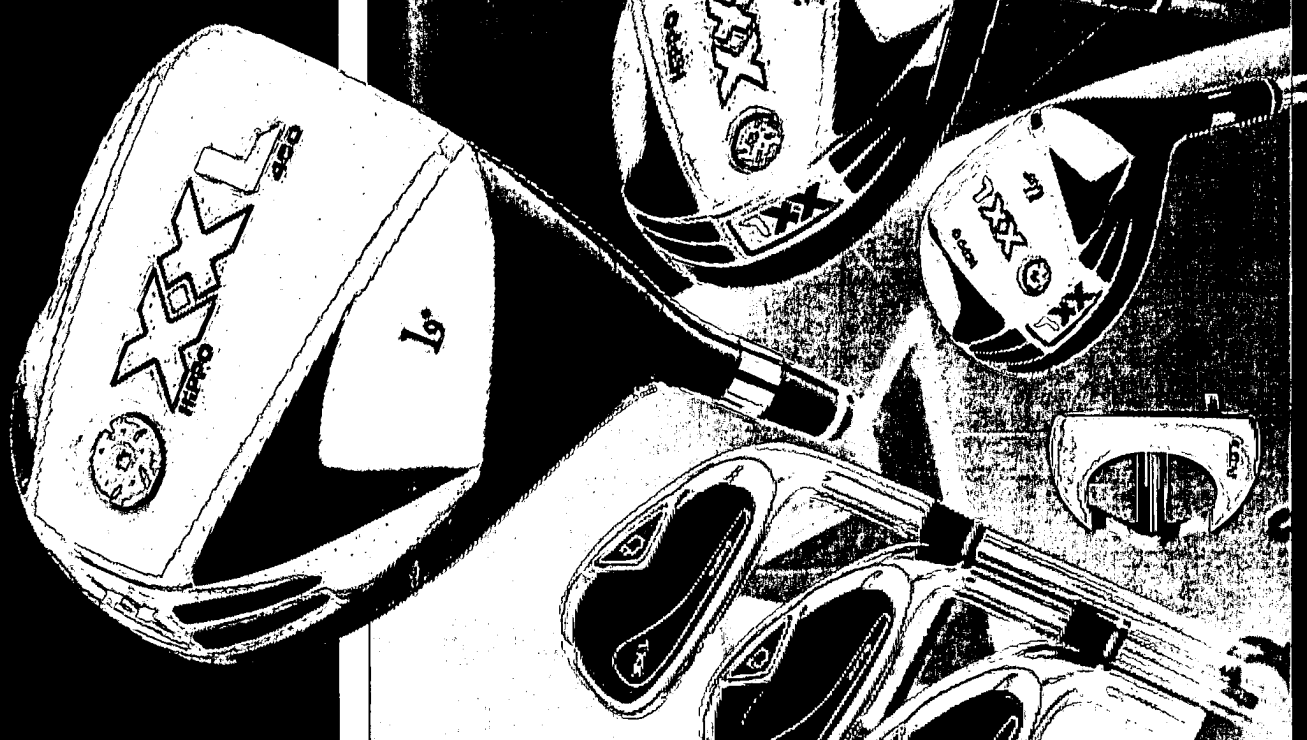

- All the NG putters feature polymer insert faces, which provide a soft feel without sacrificing feedback and enables true touch and distance control.
- The polymer insert also enables optimum perimeter weighting for greater forgiveness.
- Custom designed putter shafts for the unique new generation head designs have been used to optimize performance.
- HiPPO premium soft wrap grip as used as standard.
- Five right hand and one left hand option - 35" only.

XXL Performance kit

The XXL complete package is designed for the better player demanding quality and performance at an incredible value.

- The XXL forged Beta Titanium driver with external weighting meets the needs of the better golfer. Available in 9, 10, and 12 degree lofts.
- Included is the XXL mashing steel 3 fairway wood and 18 or 20 degree shallowface hybrid club.
- Replacing the hard to hit 3 and 4 irons are two easy hitting hybrids in graphite shafts.
- Deep cavity back irons #5 through Pitching Wedge round out the club set in the XXL Performance kit.
- The New Generation 7 putter with stainless steel mallet design and soft polymer face is guaranteed to sink putts.
- To hold this great set is the Viper Rattler deluxe stand bag in hot flame orange.
- All woods and hybrids use the proprietary Mitsubishi Rayon graphite shaft and are available in stiff, regular, and senior flex. The XXL irons come with steel shafts.

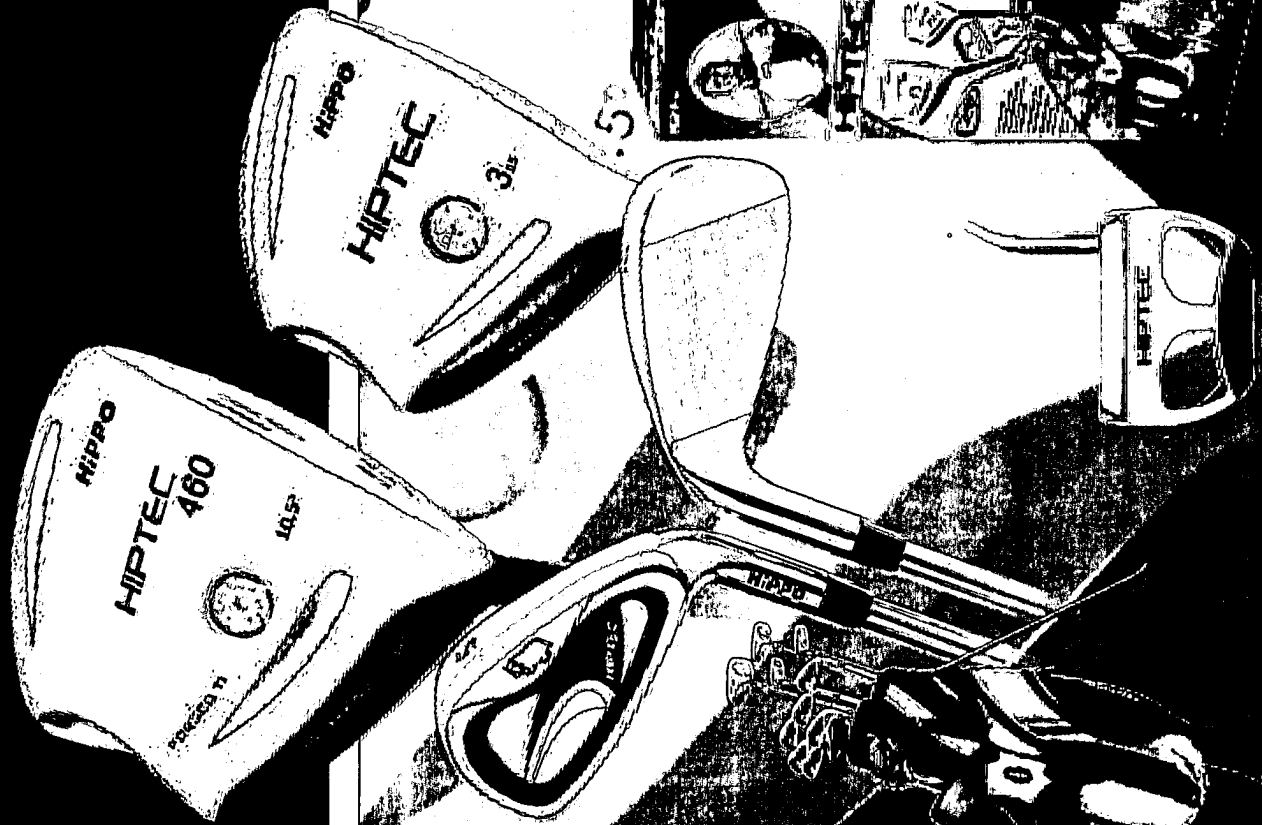

EXHIBIT 1
Page 20

HIPPO

HIPTEC Box set

The HipTec complete box set represents incredible performance and value.

- Includes the hot new 460cc HipTec forged titanium driver, 3 wood, 2 hybrids, 5 through PW irons, new generation putter, and deluxe lightweight stand bag.
- The new Hip Tec oversize forged titanium driver and maraging steel fairway wood have enormous sweet spots for greater forgiveness off the tee and fairway.
- Hip Tec 3 and 4 hybrids replace the hard to hit irons and get the ball up quickly from deep rough or tight fairway lies.
- The HipTec stainless steel irons are designed for high performance and will meet the demands of the better golfer.
- Includes new generation putter with polymer face insert for added feel and touch control.
- Ultra lite deluxe stand bag with 11 1/2 length dividers, lots of pockets for valuables and clothing, Lumber support, umbrella holder, rain hood and towel ring.
- Available all graphite or steel shafted irons, right and left hand and plus 1 inch.

HIPTEC

GIANT Box set

The Giant set is a complete package including driver, fairway wood, hybrids, irons, putter, and bag.

- The 460cc Giant forged titanium driver with proprietary Hippo graphite shaft provides power and distance off the tee.
- Hyper metal stainless steel fairway wood and 21 and 24-degree hybrids provide long and true shots from fairway or rough.
- Stainless steel oversize cavity back irons from 5-iron to PW are designed to get the ball airborne quickly with forgiveness.

- The set includes a high performance mallet putter that gets the ball rolling quickly and ~~the~~ **the** ~~right~~ **right** ~~cup~~ **cup**.
- The dual strap, ergonomically designed stand bag has full length dividers and lots of pockets to store valuables and clothing.

HIPPO

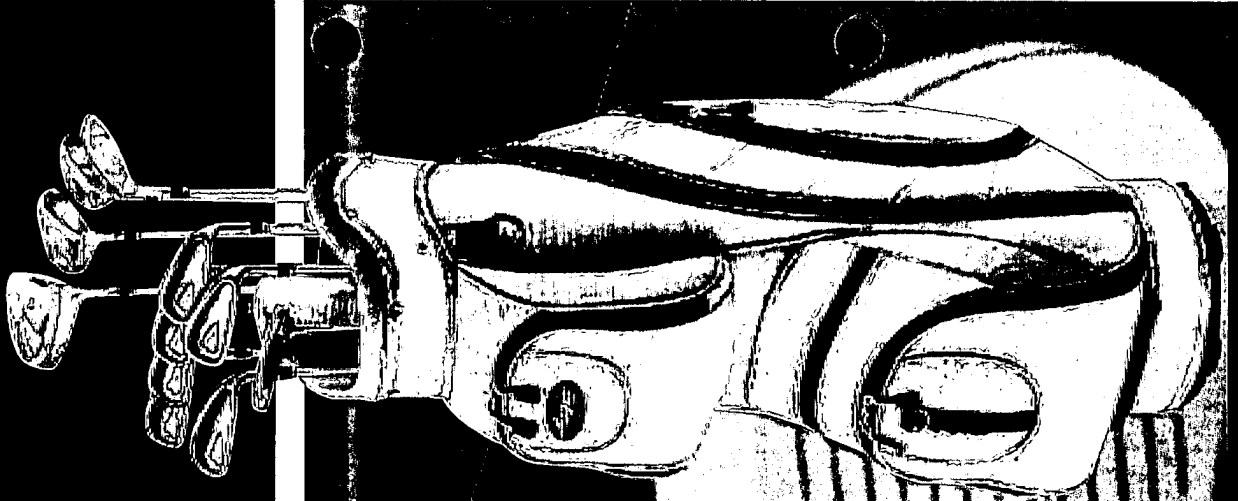

RS3 Box set

Designed for the recreational golfer, the RS3 set includes driver, 3 fairway wood, hybrid club (all with head covers), 4-PW, putter and deluxe stand bag.

- Driver. Forged titanium driver with proprietary Hippo-graphite shaft provides power and distance off the tee.
- Fairway and Hybrid. Hyper metal 3 fairway wood and 21 degree hybrid provide long and true shots from the fairway or rough.
- Irons. Stainless steel oversize deep cavity irons from 4-PW are designed to get the ball airborne quickly with forgiveness.
- Putter. The set includes a high moment of inertia putter that gets the ball rolling quickly and true to the cup.
- Stand Bag. The dual strap, ergonomically designed stand bag has full length dividers and lots of pockets to store valuables and clothing.
- Available in right hand and left hand

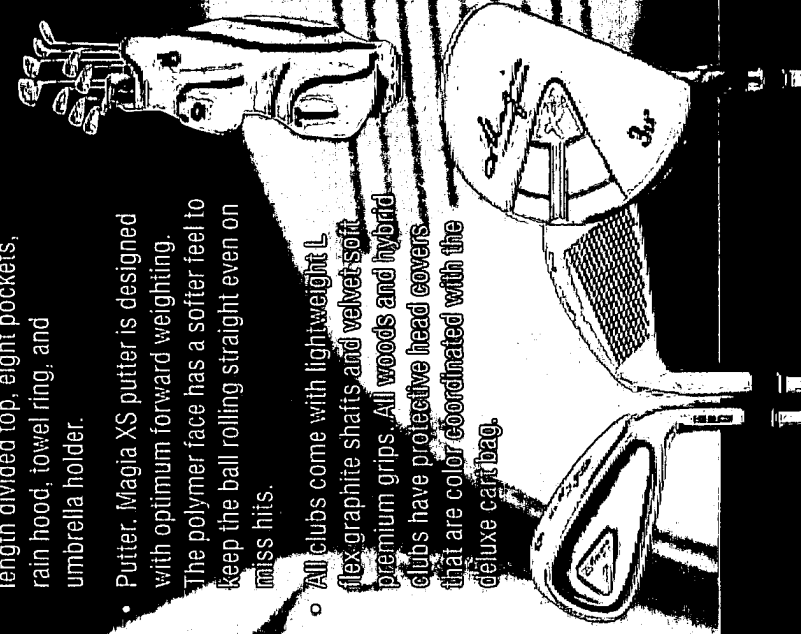

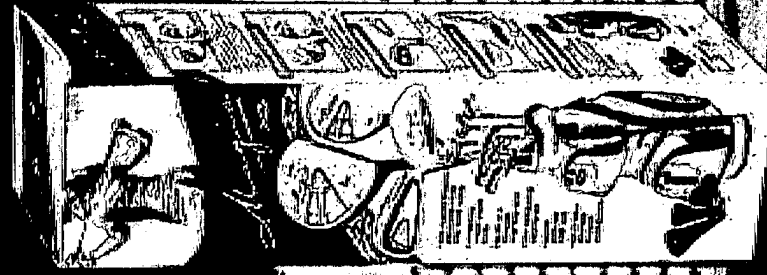

Magia XS Box set

The Magia XS set is designed specifically for women to provide the ultimate in forgiveness, distance, and control. Every club is engineered with a low, deep center of gravity that makes it easier to get the ball into the air with a high, straight ball flight.

• Available in hot, pink, or silver/blue

- Driver and Fairway Woods: The oversized 420cc forged titanium driver is off-set to reduce slicing and has a huge sweet spot making it extremely forgiving. With a high launch 12 degree loft, drives will be straight and long.
- The 15 degree Hyper-Steel 3 fairway wood is off-set to reduce slicing and designed to be most forgiving for off-center hits.
- Hybrids: Magia XS #4 and #5 Hybrid clubs with off-set hosels and low profile shapes these super clubs replace the hard-to-hit long irons so you can hit those long approach shots to the green with total confidence.
- Irons: Magia XS irons #6-SW. Deep cavity stainless steel off-set irons have a wide sole designed for easy hitting and forgiveness when miss hit.
- Deluxe Superlite Cart Bag: Magia XS deluxe cart bag is color coordinated with the Magia XS club shafts and head covers and is designed for function and style. Eight way full length divided top, eight pockets, rain hood, towel ring, and umbrella holder.
- Putter: Magia XS putter is designed with optimum forward weighting. The polymer face has a softer feel to keep the ball rolling straight even on miss hits.
- All clubs come with lightweight L flex graphite shafts and velvet soft premium grips. All woods and hybrid clubs have protective head covers that are color coordinated with the deluxe cart bag.

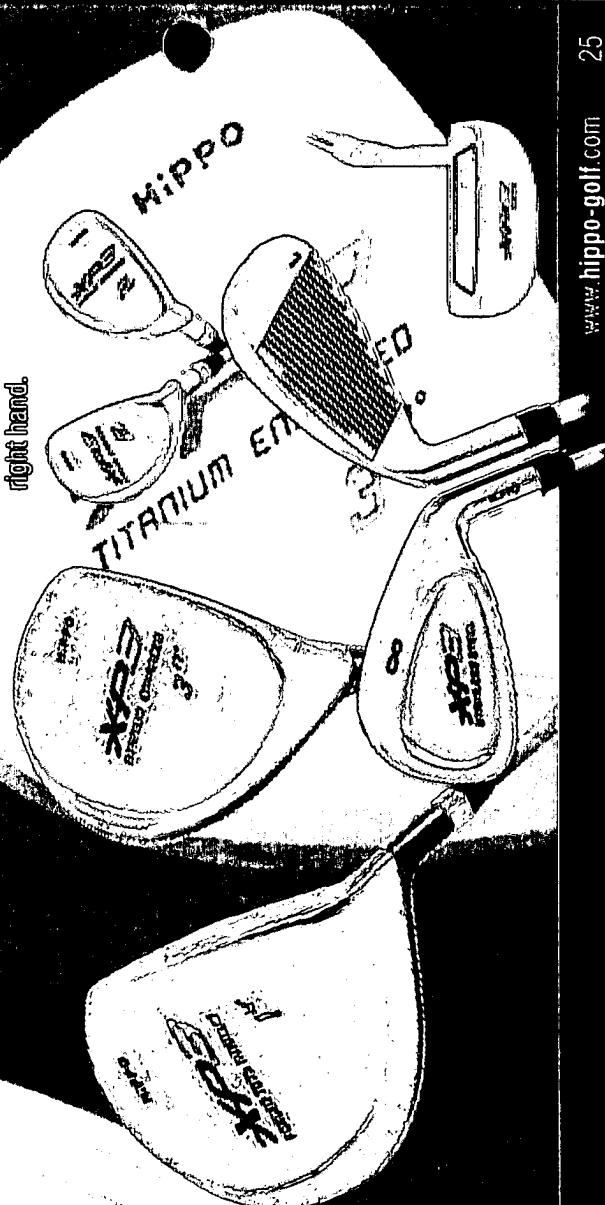

HiPPO

XP3 Box set

Complete set for the lady golfer includes over size off set driver, 3 wood, 2 hybrids, and Stainless Steel irons 7-SW plus mallet shaped putter and color coordinated cart bag.

- Driver: Large 420cc titanium driver with offset hosel to promote straight and long drives from the tee.
- Fairways: 3 fairway wood and 2 hybrid clubs, to replace the hard to hit long irons, ensure shots to green.
- Irons: Deep cavity stainless steel iron set 7-SW are designed to be forgiving even on miss hits.
- Putter: The large mallet head putter will help sink more putts with maximum toe and heel weighting.
- Cart Bag: The color matching deluxe cart bag with full length dividers has room to carry all valuables and extra clothing.
- Available in all graphite shafts only. Right and left hand and petite length right hand.

SP39 Junior kit

The SP39 Junior set is comprised of an oversize wood, a 21 degree hybrid style club, two junior irons, junior putter and an Ultra-lite stand bag.

- Driver and Utility. Oversize driver with rebound face design giving maximum distance.
- Utility style rescue club designed for forgiveness and playability.
- Hippo ultra-lite graphite shaft.
- Two Junior irons. #7/8 and #9/P. Ultra light mirror finish stainless steel head for exceptionally consistent feel, distance control and accuracy.
- Hippo graphite shafts.
- Junior putter. Precision engineered to provide maximum feel and control.
- Deluxe Ultra-lite stand bag. Pro cushion dual carry strap system light weight design including rain hood, graphite 4-way divided top.
- Available in right and left hand for ages 5 - 9 years and 10 - 14 years.

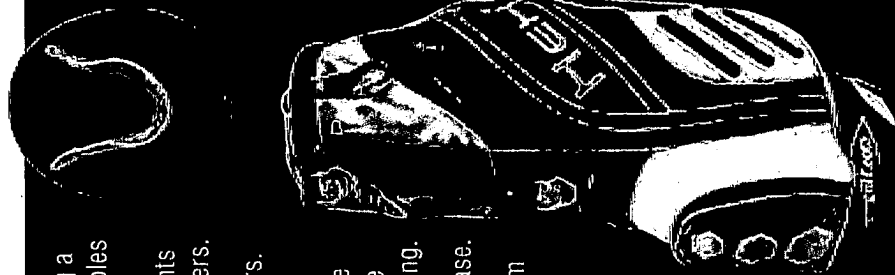

EXHIBIT 1
Page 26

HEX Stand bag

Premium Hippo stand bag with an eight way divider top for full graphite protection.

- Six pockets including a cooler pocket, valuables pouch and full length clothing compartments with waterproof zippers.
- Tee and pencil holders.
- Silicon two-tone soft feel contoured handle and base grab handle for ease of transporting.
- Moulded two-tone base.
- Lightweight aluminum stand for stability.
- Umbrella holder, carabineer clip and glove tag.

Viper Sidewinder

Made from ultra lightweight DuPont material the Sidewinder stand bag is the lightest stand bag Viper has ever produced.

- 7.5" seven way top.
- An incredible nine pockets including phone pocket, valuable pouch, cooler pocket and detachable full length clothing pocket for personalisation/embroidery.
- Tee and pencil holders.
- Unique stand with extra wide feet for stability.
- Thermoform hip pad.
- Umbrella holder, carabineer clip and glove tag.
- Lightweight padded dual shoulder strap.

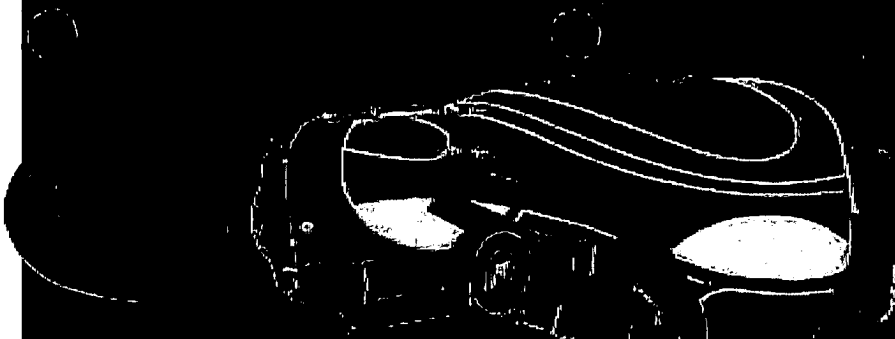

Color options:
 Grey/Silver/Blue
 Black/Grey/Orange

Viper Copperhead

Refined design with new features make the Copperhead an excellent lightweight stand bag.

- Eight way divider top with full length dividers.
- Lightweight design for easy carrying.
- Six pockets including fur lined valuables pocket and a full length clothing compartment.
- Large dry pocket.
- Carabineer, umbrella ring and rain hood.

Color options:
 Black/Silver
 Black/Red
 Black/Royal Blue

Rattler

The Viper Rattler is a lightweight and versatile stand bag.

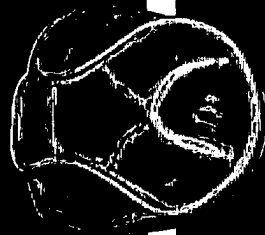

Fang

The Viper Fang is a lightweight all terrain stand bag.

- Unique seven way top with full dividers, superior light weight design.
- Seven pockets, including full length clothing compartment, ball and accessory pockets.
- Lumbar support, contoured dual shoulder strap system provides incredible comfort.
- Deluxe thermoformed lumbar/hip pad.
- Umbrella holder, towel ring and rain hood.
- Lightweight high tensile stand system.
- Snap-on rain cover.

- Six way divided top, full length dividers to help separate clubs and protect shafts.
- Lightweight all terrain stand bag with included bottom for stability.
- Seven pocket design to hold all a golfer needs.
- Tee holder on the front ball pocket.
- Snap-on rain cover.

Color options:

Black/Silver
Black/Fire Orange
Black/Red

Color options:

Black/Silver
Black/Red
Black/Royal Blue

Viper Catalina cart bag

The Viper Catalina, the ultimate in cart bag design, with almost too many features to list.

- Designed to allow easy access to all pockets while on the cart.
- 14 way top, full length dividers, superior lightweight design.
- Ten pockets, including two full length clothing compartments and accessory pockets.
- Cooler pocket and fur lined valuables pouch.
- Exterior enclosed putter or ball retriever holder.
- Vented ball pocket and external ball holder, key holder and tee holders.
- Umbrella holder, towel ring and rain hood and snap-on rain cover.

Color options:
 Black/Silver
 Black/Red
 Black/Royal Blue

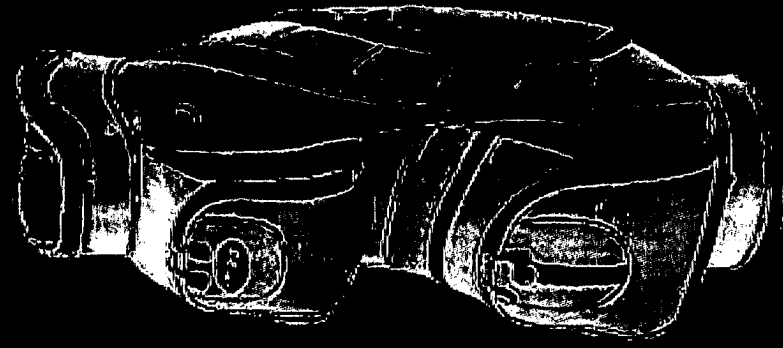

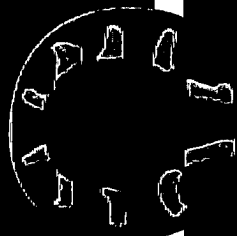

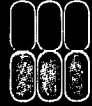

Magia XS Cart bag

The deluxe Magia ladies cart bag incorporates the latest in function, materials, design and fashion.

- Eight way full length divided top keeps clubs protected and easy to remove.
- Eight accessible pockets all with pull zippers give plenty of storage and protection for valuables.
- Includes matching snap on rain hood.
- Also features towel ring and umbrella holder.

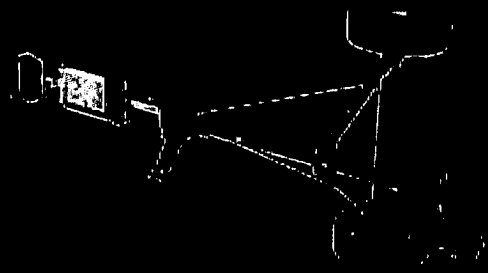

Color options:
 Silver/Blue
 Silver/Pink
 Silver/Cranberry

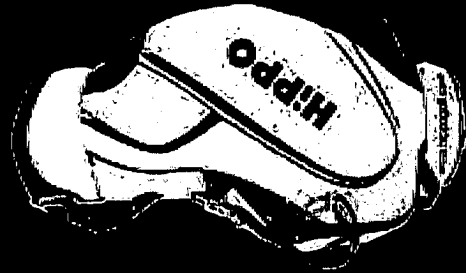

Accessories

HIPPO offers a wide range of golfing accessories from caps to pull carts.

- Lightweight, Steel Pull Cart.
Comfortable contoured handle.
One-step collapsible design.
Durable, easy to install wheels.
Anti-slide tire.
Tee, ball and scorecard holder.
Nylon bagstraps with snap-lock buckles.
Color box with pictures of all the features.

- HIPPO Staff Bags. 10" superior staff bags.
• Eight pockets, including substantial full length clothing compartment.
• Six-way full length dividers.
• Rain/travel hood.
• Integral umbrella sleeve and towel ring.
• HIPPO staff colors.

- HIPPO Caps.
Traditional 6-panel structured, stretch fitted cap, 2-way stretch brushed cotton twill.
• Available in black and white and red and white.

- HIPPO Towels.
100% woven cotton.
• Available in standard and large sizes.

INSTRUCTIONS FOR ATTORNEYS COMPLETING CIVIL COVER SHEET FORM JS 44

Authority For Civil Cover Sheet

The JS 44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and service of pleading or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. The attorney filing a case should complete the form as follows:

I. (a) Plaintiffs-Defendants. Enter names (last, first, middle initial) of plaintiff and defendant. If the plaintiff or defendant is a government agency, use only the full name or standard abbreviations. If the plaintiff or defendant is an official within a government agency, identify first the agency and then the official, giving both name and title.

(b) County of Residence. For each civil case filed, except U.S. plaintiff cases, enter the name of the county where the first listed plaintiff resides at the time of filing. In U.S. plaintiff cases, enter the name of the county in which the first listed defendant resides at the time of filing. (NOTE: In land condemnation cases, the county of residence of the "defendant" is the location of the tract of land involved.)

(c) Attorneys. Enter the firm name, address, telephone number, and attorney of record. If there are several attorneys, list them on an attachment, noting in this section "(see attachment)".

II. Jurisdiction. The basis of jurisdiction is set forth under Rule 8(a), F.R.C.P., which requires that jurisdictions be shown in pleadings. Place an "X" in one of the boxes. If there is more than one basis of jurisdiction, precedence is given in the order shown below.

United States plaintiff. (1) Jurisdiction based on 28 U.S.C. 1345 and 1348. Suits by agencies and officers of the United States are included here.

United States defendant. (2) When the plaintiff is suing the United States, its officers or agencies, place an "X" in this box.

Federal question. (3) This refers to suits under 28 U.S.C. 1331, where jurisdiction arises under the Constitution of the United States, an amendment to the Constitution, an act of Congress or a treaty of the United States. In cases where the U.S. is a party, the U.S. plaintiff or defendant code takes precedence, and box 1 or 2 should be marked.

Diversity of citizenship. (4) This refers to suits under 28 U.S.C. 1332, where parties are citizens of different states. When Box 4 is checked, the citizenship of the different parties must be checked. (See Section III below; federal question actions take precedence over diversity cases.)

III. Residence (citizenship) of Principal Parties. This section of the JS 44 is to be completed if diversity of citizenship was indicated above. Mark this section for each principal party.

IV. Nature of Suit. Place an "X" in the appropriate box. If the nature of suit cannot be determined, be sure the cause of action, in Section VI below, is sufficient to enable the deputy clerk or the statistical clerks in the Administrative Office to determine the nature of suit. If the cause fits more than one nature of suit, select the most definitive.

V. Origin. Place an "X" in one of the seven boxes.

Original Proceedings. (1) Cases which originate in the United States district courts.

Removed from State Court. (2) Proceedings initiated in state courts may be removed to the district courts under Title 28 U.S.C., Section 1441. When the petition for removal is granted, check this box.

Remanded from Appellate Court. (3) Check this box for cases remanded to the district court for further action. Use the date of remand as the filing date.

Reinstated or Reopened. (4) Check this box for cases reinstated or reopened in the district court. Use the reopening date as the filing date.

Transferred from Another District. (5) For cases transferred under Title 28 U.S.C. Section 1404(a). Do not use this for within district transfers or multidistrict litigation transfers.

Multidistrict Litigation. (6) Check this box when a multidistrict case is transferred into the district under authority of Title 28 U.S.C. Section 1407. When this box is checked, do not check (5) above.

Appeal to District Judge from Magistrate Judgment. (7) Check this box for an appeal from a magistrate judge's decision.

VI. Cause of Action. Report the civil statute directly related to the cause of action and give a brief description of the cause. **Do not cite jurisdictional statutes unless diversity.** Example: U.S. Civil Statute: 47 USC 553
Brief Description: Unauthorized reception of cable service

VII. Requested in Complaint. Class Action. Place an "X" in this box if you are filing a class action under Rule 23, F.R.Cv.P.

Demand. In this space enter the dollar amount (in thousands of dollars) being demanded or indicate other demand such as a preliminary injunction.

Jury Demand. Check the appropriate box to indicate whether or not a jury is being demanded.

VIII. Related Cases. This section of the JS 44 is used to reference related pending cases if any. If there are related pending cases, insert the docket numbers and the corresponding judge names for such cases.

Date and Attorney Signature. Date and sign the civil cover sheet.
